

Velvet Energy Ltd. is a private oil and gas exploration and production company, solely focused on oil and liquids-rich natural gas in the Deep Basin of Alberta. Led by a proven management team, Velvet has grown to a 30,000+ boe/d intermediate producer, with over 85% of our growth via the drill bit. This growth has been facilitated through high working interest ownership in operated wells and related infrastructure. We currently have an exciting opportunity to join our growing team:

Production Technician - Term

Reporting to the Manager, Production, the successful candidate will be a key member of the operations group responsible for providing support in all areas of the production cycle including budgeting, opex analysis and well reviews. The incumbent must be a self-starter with strong drive and initiative. Working well individually and as part of a team are important qualities, as well as the ability to deliver results while under pressure with competing deadlines.

Key Responsibilities

- Use production expertise to provide technical and administrative support to Production and Operations teams to improve asset value
- Responsible for Measurement Coordination including new well set-ups in FDC and SCADA systems, monitoring production, weekly and monthly production reporting, measurement schematics, fluid analysis scheduling and management, and assisting with annual EPAP Audit
- Provide operating expense accruals and analysis to ensure accurate cash flow forecasts
- Provide support to Field Operations and Production Accountants as required
- Communicate with various functions, confirming quality control and continuous improvement in production capabilities and processes
- Create and implement training manuals and documentation to be used as guides for field operations
- Conduct training sessions on production management systems
- Assist with due diligence for acquisitions and dispositions

Qualifications and Skills

The successful candidate will have:

- Diploma in Mechanical or Petroleum Engineering Technology or Certificate in Petroleum Technology or equivalent experience
- 10-15 years of Production Tech experience with a junior or intermediate E&P company
- Working knowledge of Zedi, SCADACore, Production Manager, ProTrend and Microsoft Office
- A strong work ethic with top tier organizational skills

This is a term position with an expected contract end date of March 2020.

We offer a competitive compensation package with performance incentives and comprehensive health benefits. Interested and qualified applicants are invited to forward their resume in confidence to careers@velvetenergy.ca. Thank you for your interest in Velvet Energy Ltd.
